

August 26, 2021

As the eyes of the world turn toward Haiti, World Medical Relief is grateful to partner with other like-minded individuals and organizations to provide assistance to those impacted by the back-to-back disasters the county has experienced.

World Medical Relief, in cooperation with Alafia Foundation of Hope International, Christian Faith Ministries, Divine Child High School, and Kappa Psi Pharmaceutical Fraternity of Wayne State University, is collecting a variety of supplies for the Caribbean nation, which was rocked by a 7.2-magnitude earthquake less than 14 days ago and pummeled by Tropical Storm Grace two days later. As a result of this two-fold tragedy, more than 2000 Haitians have died, while thousands more are homeless.

If you would like to help those in Haiti, donations of the following items are being collected at World Medical Relief, 21725 Melrose Avenue, in Southfield. Drop off: Monday-Friday between 8 a.m. and 4 p.m.
